

The Benefit of Leasing

No large capital outlay is required which reserves cash flow for use within your business.

Lease repayments are 100% tax deductible and therefore attract tax relief for the full duration of the lease agreement.

Your repayments will be fixed throughout the term of the lease meaning easier budgeting. You can choose the repayment option you prefer (Quarterly or Monthly).

If technology or your needs change, you can upgrade the system at any time.

West Mercia Security are able to provide you with the Lease Examples (subject to status) for your equipment.
